

MRS. SYNAN'S CLASS

SPAULDING SCHOOL, GURNEE IL

Reading

This week we went on our first Web Field Trip! The kids had so much fun exploring an aquarium like they were there. We watched web cams of the penguins and the shark tank. When the sharks swam by we all screamed like we were in the tank with them! Please ask your child how they liked it!!!

Math

We are working hard on ways to subtract! We have also started learning about related facts and fact families. Please look in the "At Home" section for an idea you can do at home. Any and all help will help your child succeed!

Vocabulary

New Words

transportation invention fact families related facts

Handsome
Markees

at HOME

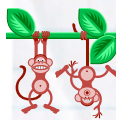

Try giving your child 3 numbers that can be turned into fact families, and see if they can tell you 2 subtraction sentences and 2 addition sentences!

Here is an example: 2, 4, 6
2+4=6 4+2=6 6-2=4 6-4=2

STAR STUDENT

Julius White was our star this week. He shared his Bakugans and his awesome visit with Marshall. He also shared that he loves macaroni and cheese and that he wants to be a hair stylist when he grows up! Thanks for sharing Julius!!
